E-Commerce Chatbot Knowledge Base

This document is the knowledge source for the E-Commerce Customer Support Chatbot. It is structured as self-contained Question & Answer entries grouped by topic, optimized for retrieval-augmented generation (RAG). Each entry contains the full context needed to answer a customer query without depending on surrounding sections.

SECTION 1: PRODUCTS

Q: What categories of products does the store sell?

A: The store sells products across the following categories: Electronics (mobiles, laptops, accessories), Fashion (men's, women's, and kids' clothing, footwear), Home & Kitchen (appliances, décor, furniture), Beauty & Personal Care, Groceries, Books & Stationery, and Sports & Fitness equipment.

Q: How can I check if a product is in stock?

A: Product availability is shown in real time on the product page. If a product is in stock, the page displays "In Stock" with the available quantity or delivery estimate. If it is unavailable, the page displays "Out of Stock" and customers can click "Notify Me" to receive an email or SMS alert when the product is restocked.

Q: Are the product images and descriptions accurate?

A: Product images and descriptions are provided by the seller/brand and are reviewed by our quality team before listing. Actual product color may vary slightly due to screen/display settings. If a received product significantly differs from its description or image, customers can request a return under the "Item Not as Described" reason within 7 days of delivery.

Q: Does the store sell genuine/original products only?

A: Yes, all products listed on the platform are sourced from authorized brands, distributors, or verified sellers. Every product goes through a seller verification process. Customers can report suspected counterfeit products through the "Report a Problem" option on the product page, and such reports are investigated within 48 hours.

Q: How do I find product size and fit information?

A: Size charts are available on every fashion and footwear product page under the “Size Guide” tab. The size guide includes measurements in both centimeters and inches, and a fit recommendation (Slim/Regular/Loose) based on the brand.

Q: Can I compare two or more products before buying?

A: Yes, customers can add up to 4 products from the same category to the “Compare” list using the compare icon on the product card. The comparison page shows specifications, price, ratings, and key features side by side.

Q: How can I read or write product reviews?

A: Product reviews and ratings from verified buyers are displayed on the product page under the “Ratings & Reviews” tab. Only customers who have purchased and received the product can submit a review. Reviews can include text, a star rating (1-5), and up to 5 photos.

Q: Does the store offer warranty on products?

A: Warranty terms vary by product and are mentioned on the product page under “Warranty Information.” Most electronics carry a manufacturer warranty ranging from 6 months to 2 years. Warranty claims must be raised directly with the brand’s service center using the invoice provided at the time of delivery, unless the platform offers an extended warranty service, in which case claims can be raised through the “My Orders” section.

Q: What does “Sold by [Seller Name]” mean on a product page?

A: The platform is a marketplace, meaning products may be sold and shipped by third-party sellers rather than the platform itself. The seller’s name is displayed on the product page. Return, refund, and shipping policies remain the same across all sellers unless otherwise noted, since the platform enforces uniform policies for all marketplace sellers.

Q: How do I know the correct price of a product, including taxes?

A: The price displayed on the product page is inclusive of all applicable taxes (GST/VAT depending on region). Any additional charges, such as shipping fees or cash-on-delivery charges, are shown separately at checkout before payment confirmation.

SECTION 2: ORDERS

Q: How do I place an order?

A: To place an order, add the desired product to the cart, click “Proceed to Checkout,” select or add a delivery address, choose a payment method, and confirm the order. An order confirmation with an Order ID is generated instantly and sent via email and SMS.

Q: How can I track my order?

A: Orders can be tracked by going to “My Orders” section, selecting the relevant order, and clicking “Track Order.” This displays the current status: Order Placed, Packed, Shipped, Out for Delivery, or Delivered, along with the estimated delivery date and courier tracking ID if applicable.

Q: Can I modify my order after placing it?

A: Order modifications, such as changing the size, color, or delivery address, are only possible within 30 minutes of placing the order and only before the order has been packed for shipment. After this window, the order cannot be modified, but it can be cancelled if it has not yet shipped, and a new order can be placed.

Q: How do I cancel an order?

A: To cancel an order, go to “My Orders,” select the order, and click “Cancel Order.” Orders can be cancelled free of charge as long as they have not been shipped. Once an order is shipped, it cannot be cancelled, but customers can refuse delivery or initiate a return after receiving the product.

Q: Why was my order cancelled automatically?

A: Orders may be auto-cancelled by the system due to: payment failure or non-confirmation, the product going out of stock after ordering, an undeliverable address/pin code, or failed fraud/verification checks. If an order is auto-cancelled and payment was already deducted, the amount is automatically refunded within 5-7 business days.

Q: What do the different order statuses mean?

A: “Order Placed” means the order is confirmed and awaiting processing. “Packed” means the seller has prepared the item for shipment. “Shipped” means the courier has picked up the package. “Out for Delivery” means the package is with the local delivery agent for same-day delivery. “Delivered” means the order has been successfully handed over to the customer.

Q: Can I place an order without creating an account?

A: Yes, guest checkout is available for most product categories. However, customers are required to provide a valid mobile number and email address for order updates. Creating an account is recommended as it allows order history tracking, faster checkout, and access to saved addresses and wishlists.

Q: What happens if I receive the wrong product?

A: If a customer receives an incorrect product, they should raise a "Wrong Item Delivered" request within 7 days of delivery from the "My Orders" section, along with photos of the received item and its packaging. A free reverse pickup is arranged, and the correct item is shipped, or a full refund is issued once the wrong item is received back.

Q: Can I order multiple items and receive them separately?

A: Yes, if a single order contains items from different sellers or warehouses, the items may be shipped and delivered separately, each with its own tracking ID. This is done to ensure faster delivery rather than waiting for all items to be dispatched together.

Q: How long does it take to process an order before shipping?

A: Orders are typically processed and packed within 24-48 hours of confirmation, excluding weekends and public holidays for certain sellers. Processing time may extend during high-demand sale periods.

SECTION 3: SHIPPING & DELIVERY

Q: What are the delivery timelines?

A: Standard delivery takes 3-5 business days within serviceable pin codes. Express delivery, where available, takes 1-2 business days for an additional charge. Delivery timelines are estimates and may vary based on location, weather, or logistical delays, and the estimated delivery date is always shown on the product page and at checkout.

Q: Is shipping free?

A: Shipping is free on orders above ₹499. For orders below this amount, a flat shipping fee of ₹40 is charged. Certain categories such as large furniture or bulk grocery orders may have separate shipping charges displayed at checkout regardless of order value.

Q: Do you deliver to my location?

A: Delivery availability can be checked by entering the pin code on the product page under "Check Delivery Availability." Most urban and semi-urban pin codes across the

country are serviceable. Remote areas may have limited serviceability, longer delivery times, or Cash on Delivery restrictions.

Q: Is Cash on Delivery (COD) available?

A: COD is available for eligible products and pin codes, shown as a payment option at checkout. A COD handling fee of ₹25 may apply depending on the order value. High-value electronics above ₹50,000 and certain categories may not be eligible for COD.

Q: How do I track my shipment in real time?

A: Once an order is shipped, a tracking link and tracking ID are sent via SMS and email, and are also available in "My Orders." Clicking the tracking link redirects to the courier partner's website showing real-time shipment location and delivery status.

Q: What if my package is delayed?

A: If a shipment is delayed beyond the estimated delivery date, customers can check the live tracking status first. If there is no movement in tracking for more than 48 hours, customers can raise a "Delivery Delay" complaint through "My Orders," after which the support team investigates with the courier partner within 24 hours.

Q: What if I am not available to receive my order?

A: The delivery agent typically attempts delivery up to 3 times over consecutive days. Customers receive an SMS/call before each attempt. If all attempts fail, the package is returned to the seller, and the order is either auto-cancelled with a refund (for prepaid orders) or marked as a failed delivery.

Q: Can I change my delivery address after the order is shipped?

A: Once an order has shipped, the delivery address cannot be changed, since the shipping label and logistics routing are already finalized. Customers should cancel the shipped order upon delivery attempt (refuse delivery) and place a new order with the correct address, or contact support for seller-specific exceptions.

Q: Do you offer international shipping?

A: International shipping is currently available only for select product categories and select countries, shown at checkout when a customer selects an international address. Customs duties and import taxes, if applicable, are the responsibility of the customer and are not included in the product price.

Q: How is packaging handled for fragile items?

A: Fragile items such as electronics, glassware, and appliances are shipped in reinforced packaging with cushioning material. Customers are advised to record an unboxing video for high-value items, as this can help expedite claims in case of damage during transit.

SECTION 4: REFUNDS & RETURNS

Q: What is the return policy?

A: Most products can be returned within 7-10 days of delivery, depending on the category (visible on the product page under “Return Policy”). The product must be unused, in its original packaging, with all tags and accessories intact. Certain categories like innerwear, perishables, and customized products are non-returnable for hygiene and safety reasons.

Q: How do I initiate a return?

A: To initiate a return, go to “My Orders,” select the order, click “Return Item,” choose a reason (e.g., defective, wrong item, not as described, size issue), and select whether you want a replacement or a refund. A free reverse pickup is scheduled, or in some cases, customers are asked to self-ship the item.

Q: How long does a refund take to process?

A: Once the returned item is received and quality-checked by the seller/warehouse (usually within 2-3 business days), the refund is initiated. Refunds to the original payment method (credit/debit card, UPI, net banking) take 5-7 business days to reflect. Refunds to store wallet/credit are processed instantly. COD order refunds are issued via bank transfer and require the customer to provide bank account details.

Q: Can I get a replacement instead of a refund?

A: Yes, for defective, damaged, or wrong items, customers can choose a free replacement instead of a refund at the time of raising the return request, provided the same product and variant are in stock. If out of stock, only a refund option is offered.

Q: What if I received a damaged or defective product?

A: If a product arrives damaged or is found defective, customers should raise a “Damaged/Defective Item” return request within 48 hours of delivery, ideally with photos or an unboxing video. These requests are prioritized and typically approved without requiring the item to be returned to the seller, with pickup and refund/replacement processed on a priority basis.

Q: Why was my refund amount less than what I paid?

A: If the shipping fee or COD handling fee was non-refundable as per the item's return policy, or if a promotional discount/coupon applied to the order becomes invalid due to the return (e.g., a "buy 2 get 1 free" offer), the refunded amount may be adjusted accordingly. The exact refund breakdown is always shown before confirming a return request.

Q: Can I cancel a return request after submitting it?

A: Yes, a return request can be cancelled as long as the reverse pickup has not yet been completed. This can be done from "My Orders" by selecting the order and clicking "Cancel Return Request."

Q: What if the reverse pickup for my return fails?

A: If a reverse pickup attempt fails (e.g., agent unavailable, item packaging mismatch), it is automatically rescheduled for the next 1-2 business days. If pickup fails 3 times, customers may be asked to self-ship the item to the address provided, with shipping cost reimbursed upon verification.

Q: How will I know my refund has been processed?

A: Customers receive an SMS and email notification once a refund is initiated, including the refund amount, mode, and expected credit timeline. The refund status can also be checked anytime under "My Orders" > "Refund Status."

Q: What if I haven't received my refund within the stated timeline?

A: If the refund is not credited within 7 business days of the refund being marked "processed," customers should first check with their bank, since delays can occur on the bank's end. If there's still no update after 10 business days, customers can raise a "Refund Not Received" ticket through customer support with the Order ID and transaction reference number for investigation.

SECTION 5: GENERAL SUPPORT

Q: How do I contact customer support?

A: Customer support can be reached through the in-app/website chat support (24/7), email at support@storedomain.com (response within 24 hours), or the toll-free helpline number available under the "Help" section of the app/website.

Q: How do I raise a complaint about a seller?

A: Complaints about sellers (e.g., poor quality, misleading listing) can be raised through "My Orders" > select order > "Report a Problem," or via customer support directly. All

seller complaints are reviewed by the platform’s marketplace quality team within 3-5 business days.

Q: Is my payment information secure?

A: Yes, all payment transactions are processed through PCI-DSS compliant, encrypted payment gateways. The platform does not store full card details on its servers; only tokenized references are retained for faster future checkouts, if the customer opts in.
